24th May, 2022

Sub.: Call for application for the Quad Fellowship

Applications are invited for the Quad fellowship - a first-of-its-kind scholarship program that brings together up to 25 engineers, mathematicians, scientists, and technologists from each of the four Quad countries (Australia, India, Japan, and the United States) to advance innovation and research by pursuing their graduate degrees in the United States.

The Quad Fellowship, a new graduate-level fellowship designed to build ties among the next generation of scientists and technologists, is recruiting its first cohort this year. This program will sponsor 100 exceptional American, Japanese, Australian, and Indian master's and doctoral students in science, technology, engineering, and mathematics (STEM) to study in the United States.

Details may be seen in the link: <https://www.quadfellowship.org/outreach-package> (Password: QuadFellowship2022).

There will be no financial liability on the part of UGC for this fellowship programme.
