International Webinar on

Importance of Skill Optimization in Challenging Times

Date- 09/10/2021 at 9:30 AM

Organized by Alumni and Innovation Cell

The Institute of Computer Science, Vikram University organised an International level webinar on the theme “Importance of Skill Optimization in Challenging Times” with the objective to create awareness about skill optimization amongst teaching, non-teaching staff and students of ICS.

The keynote speaker for the webinar was Mr. Ajaiya Pandey, Manager Accenture Corporation, Dallas, TX, USA. The invited speakers are Mr. Ashish Jain, Director – Delivery, Virtusa Corporation, Boston, USA, Mr. Rajendra Gang, Sr. Delivery Manager, IBM, Mr. Govind Sethiya, Sr. Manager – Enterprise Architect, Astellas Inc, Reading, UK, Mr. Anurag Jain, Jacksonville, FL, USA. The session was chaired by Honorable Vice Chancellor Prof. Akhilesh Kumar Pandey, Vikram University.

The programme started with an opening remark delivered by Mrs. Geetika Singh, Guest Lecturer, Institute of Computer Science and Convenor of webinar organising committee, followed by welcome address from Dr. Umesh Kumar Singh, Director, Institute of Computer Science.

Based on the premise that Skill development is a vital tool to empower people, to safeguard their future and for the overall development of an individual. It is an important aspect that enhances

employability in today's globalization. Skills are as essential as one's academic status. Education and skills should now go hand in hand, AJ Pandey, in his presentation he highlighted on

1. Skills – Professional vs Personal Skills
2. Skill Optimization – Upskilling and Reskilling
3. The Need of Skill Optimization
4. How/ When/ Where do we need to Up-Skill or Re- Skill ourselves?

The session ended with a round of discussion regarding skill optimization of following Panelists Mr. Ashish Jain, Director – Delivery, Virtusa Corporation, Boston, USA said that fundamentally, skill development is the one time invests in to improve their proficiency and to stay future-ready, any agilities that one follows as a passion, and the ability to complete a task with higher rates of success at the right time. It is essential because one's skills determine their ability to execute their plans with success.

Mr. Rajendra Gang, Sr. Delivery Manager, IBM said that lack of proper education, language skill and training restricts people from the opportunities for self-advancement by limiting their access to well-paid employment. Eventually, this prevents such individuals from making an influential contribution to economic growth. Thus, adequate education quality and training are recognised as fundamental ways of breaking down the eco-system of poverty.

Mr. Govind Sethiya, Sr. Manager – Enterprise Architect, Astellas Inc, Reading, UK said many organisations prefer skilled employees over less skilled ones as they have outstanding career growth, and they help boost the organization in the same way with proficient working. Skills intensify the productiveness and quality of work for more significant results. There is a great need for India to train and skill the youth for the overall development of the country.

Mr. Anurag Jain, Jacksonville, FL, USA he focuses on that in a constantly changing environment, having skills is a basic part of being able to address the difficulties of regular day to day existences. The dramatic changes in global worldwide economies over the course of the recent five years have been coordinated with the change in innovation technology. All these are putting a greater impact on education, the working environment and at our home life. He said we should focus on expressing our thoughts in simple way for greater impact. A highly technical person skills are unidentified if he is not able to express his knowledge in front of audience,

Vote of thanks by Dr. K. S. Mishra, Technical Officer, Institute of Computer Science and Convenor of webinar organising committee.

The webinar was attended by around hundred of participants from institute and other universities.
